Skills

- JavaScript
- React
- NodeJS
- HTML
- CSS / SCSS
- Bootstrap
- Material UI
- Figma
- Git / GitHub
- Docker / Postgres

Experience

- I developed a website for a local sushi restaurant using React, JavaScript, and SCSS. Implemented SPA and React Router DOM for optimized performance and seamless navigation. Managed states for efficient data handling and user interaction.

- I've worked on projects that include REST API and OOP, used Figma in both dev and designer modes, as well as the Bootstrap and MUI libraries. Additionally, I've created a small full stack application using Docker Compose and PostgreSQL and much more...

- Completed a 12-month course at "VANAR Computer Training Center" for frontend development, focusing on JavaScript Advanced, React, CSS, SCSS, and Node.js .

- Completed a basic UI-UX Design course at Webcase Community.

About me

- At 24 y. o, I am motivated to work hard and contribute effectively to your company.
